Summary report on

“COMMUNICATION SKILLS”

Communication skills involve listening, speaking, observing and empathizing. It is also helpful to understand the differences in how to communicate through face-to-face interactions, phone conversations and digital communications like email and social media. Effective communication can have a positive impact on the patient-provider dynamic in numerous ways. It can allow patients to be better educated about their own health, which could enable them to embrace proactive health and wellness strategies. It can also help patients develop a comprehensive understanding of current care strategies involving their health, including acute health situations. Communication can also help develop a sense of trust between the patient and provider, which might make it easier for patients to adhere to a provider’s recommendations. These elements can lead to several key potential long-term benefits, such as reduced patient visits, reduced costs and improved patient outcomes.

Course coordinator:

Dr. K. V. Satyanarayana Murthy: Professor in Department of Community Medicine, Malla Reddy Medical College for Women, Suraram

VENUE: Lecture Hall, Ground floor, MRMCW

DURATION: 21 hours

TIME: 09:00 am – 04:00 pm

DATE: May 23rd – 25th 2022
