**Summary Report on “IT in Medicine” value-added course**

10.02.2024

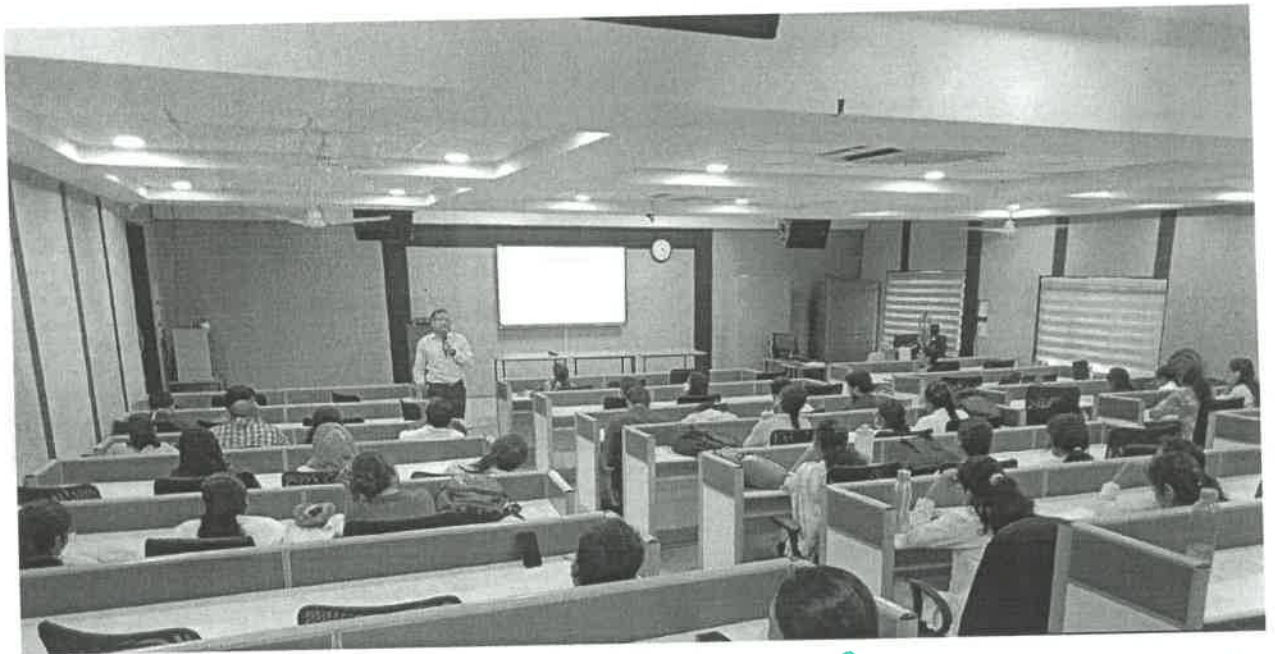

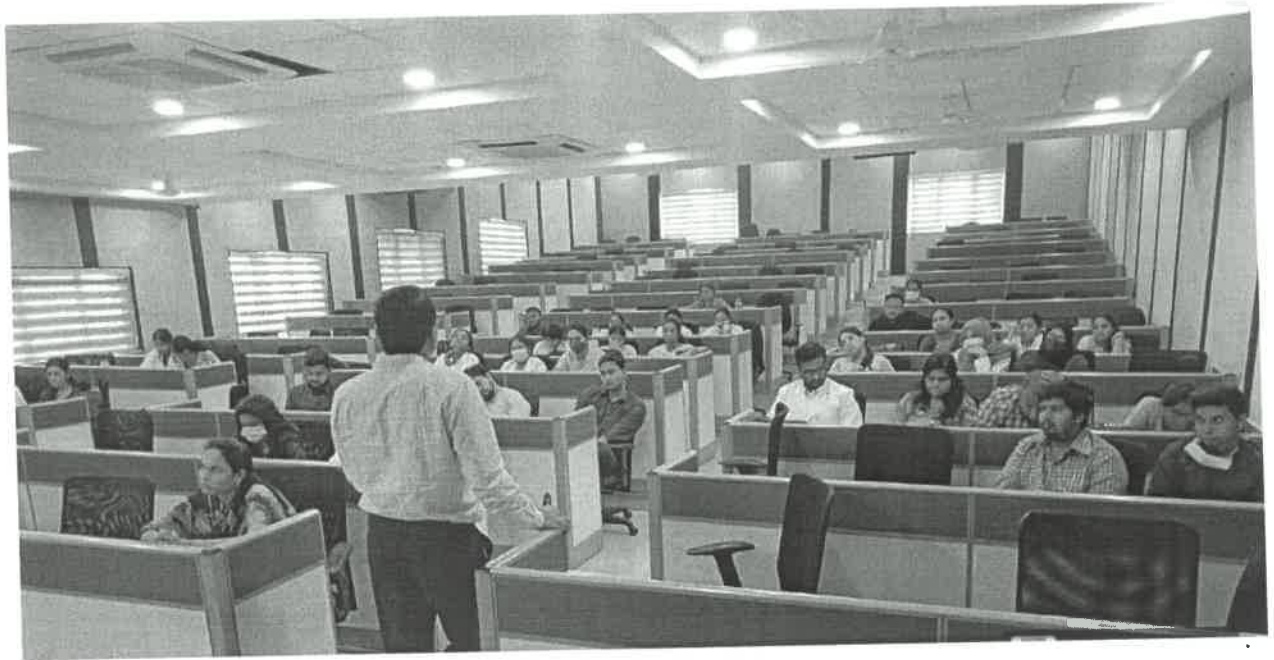

IT enables healthcare providers to deliver more efficient, effective, and personalized care to patients. Electronic Health Records (EHRs) centralize patient information, allowing for better coordination among healthcare teams, reducing medical errors, and improving diagnostic accuracy. Additionally, telemedicine platforms enable remote consultations, expanding access to healthcare services, especially in underserved areas. This course will help students to develop critical thinking skills by analyzing case studies and real-world examples of IT implementation in healthcare settings. Students will be equipped with practical skills to leverage IT solutions effectively in their future medical careers, promoting efficiency and quality in healthcare delivery.

The Course was taken by Dr K Sridevi, Professor, Community Medicine, Dr M V Vinay Kumar, Associate Professor, Department of Anatomy, & Dr K Suresh Reddy, Professor, Department of Psychiatry, MRMCW, who have extensive knowledge on the topic.

The program was conducted from 29.01.24 to 31.01.24 at Lecture Hall, Ground floor, MRMCW for II-year post graduates (2022 batch).
