**PRINCIPAL/DEAN**

Principal / Dean  
Malla Reddy Medical College for Women

### **Policy:**

To focus on Fundamental, translational and applied Research in the areas of health services.

To actively foster the support of basic and applied health care research.

To include new information and research findings in courses of instruction.

To interact with commercial and other extramural sponsors of research, clinical trials and demonstration projects under conditions in which the academic rights of faculty are protected.

These conditions include rights of publication, ownership of intellectual property, rights of patent and copyright with institutional policy, subject to appropriate contractual protection of the legitimate interests.

To aid in publication by sponsors of research, clinical trials and demonstration project supported by commercial and other extramural sponsors.

Conduct peer review by scientists/educators with expertise in the relevant field of research.

To reject the submission of any publisher that allows sponsors of the work to influence editorial policy or judgment after completion of the peer review process or project, which is the best means of assuring the quality of the publication.

### **Procedure**

The committee should review and monitor for quality research.

Should recommend for any infrastructure inputs and process modifications for promotion and sustenance of community oriented research.

The committee should meet once in 3 months to review the various research proposals submitted by various departments initially examined by a research consultant.

The scientific content of the proposal is critically scrutinized along with justification for budgetary requirement.

The professional competency and research acumen of the investigator is assessed and the proposal is then forwarded for ethical clearance.

projects and PG dissertations.

### **Guidelines for claiming and utilizing seed money for research**

Chandramma Educational Society through Committee for Research, Development and Sustenance provides seed money of Rs 20,000 (twenty thousand rupees only) to teaching faculty of MRIMS for conducting research.

Eligibility:-

Currently employed Teaching staff.

All Research projects initiated and approved on or after 1<sup>st</sup> January 2022.

Only for achievements forwarded with MRIMS Institutions name.

Only for I and II authors or to the communicative author.

The research proposal should be published in an indexed PubMed journal.

Research project should be at published /accepted stage within 18 months from the approval of seed money.

If the research project is not completed within one and half year and if the teaching faculty is leaving the institution, the approved seed money has to be deducted from their salary.

prescribed format) along with copies of proposal to Chairperson, committee for Research, Development and Sustenance.

The Committee will meet on 3<sup>rd</sup> of December (if 3<sup>rd</sup> is a holiday on a subsequent working day) at 10 AM & will consider all the applications received on or before end of the previous month.

The Incentives for various proposals will be decided by Committee meeting after scrutinizing the documents submitted by the staff members.

Incomplete application will be rejected.

The recommendation of committee will be submitted to Chairman for approval & forwarded to accounts section.

The account section shall maintain a staff wise individual account and shall post the seed money amount acquired by the staff members in his / her respective accounts.

Once the seed money is posted in the account of the respective staff member, he / she is eligible to use the said seed money for their research project.

The seed money amount can be used only after the seed money is posted in the account and not in advance.

**Key Result Area:**

To obtain the synopsis of research project to be conducted by the faculty and students

To provide the seed money to the interested faculty and students to carry out the research projects

To provide the research facilities in the institution

To collaborate with other institutions for wider area of research

To inculcate scientific thinking and research minds in faculty and student
