Summary report on “YOGA AND HEALTH” value-added course

08.01.2024

Yoga brings the body and mind together and is built on three main elements – movement, breathing and meditation. Yoga has many physical and mental health benefits including improved posture, flexibility, strength, balance and body awareness. Researchers have discovered that the regular practice of yoga may produce many health benefits, including increased cardiovascular fitness, improved muscular strength and normalization of blood pressure. Yoga is a renowned antidote to stress and promotes improved sleeping patterns. Being young, the students should know the importance of yoga, and how it can improve the health of an individual, taking the concept of holistic medicine into consideration.

Course coordinator:

DrB. Venkat Ramana: Professor & HOD in Department of Orthopedics, Malla Reddy Medical College for Women, Suraram

VENUE:Lecture Hall, Ground floor, MRMCW
