About Malla Reddy Medical college for Women,

"Malla Reddy Vishwavidyapeeth" (MRV) Deemed to be University under Distinct (Existing) Category is sponsored by the Chandramma Educational Society (CES) by visionary, founder Sri.Ch. Malla Reddy garu. Malla Reddy Medical College for Women (MRMCW), is a part of MRV established in 2013 is dedicated to empowering women through exceptional medical education. It is approved by the Statutory Regulatory Authority, the National Medical Commission (NMC), and the Ministry of Health & Family Welfare, Government of India.

Dear Colleagues,

We are pleased to invite you to the CPD on "Environmental Health Challenges in the Era of Climate change" organized by Department of Community Medicine, MRMCW.

Climate change is no longer a distant environmental concern—it is an immediate and escalating public health challenge. Rising global temperatures, extreme weather events and changing patterns of infectious diseases are increasingly impacting human health and well-being.

Environmental health professionals and healthcare providers play a critical role in recognizing, preventing, and responding to these evolving challenges. This Continuing Professional Development (CPD) program on "Environmental Health Challenges in the Era of Climate Change" aims to enhance awareness, strengthen knowledge, and build competencies required to address the complex interface between climate change and health.

CPD Objectives:

By the end of this CPD program, participants will be able to:

- Understand the key concepts of climate change and its direct & indirect impacts on environmental & human health.
- Identify major environmental health challenges arising from climate change.
- Discuss national and global policies, frameworks, and initiatives addressing climate change and health.
- Apply preventive and mitigation strategies in clinical and community settings to reduce health risks.
- Promote climate-resilient and sustainable healthcare practices.
- Encourage interdisciplinary collaboration for effective environmental health management in the context of climate change.

We look forward to your participation.
